

Vikingbus

Are you attending a meeting? Why worry about transportation?

Now Vikingbus can arrange your transportation to the local airport in your country. Being member of Global Passenger Network (GPN) Vikingbus has access to high-quality transportation providers. Thus, we arrange limousines, minivans, and coach services in most parts of the world. In addition, we can arrange transportation from Copenhagen Airport to your hotel or from your hotel to the meeting.

Our head quarters are in Copenhagen, close to Copenhagen Airport and city centre. We operate 80 coaches and employ 90 persons. We have 110 years of experience with transporting VIP groups of different sizes to planning large conferences with several thousands of participants. Viking-

bus takes part in the planning, and we work for optimizing the transportation.

Why not make the transportation an active part of the meeting. We have a number of vehicles that are suited for being branded – for example with your logo.

We acknowledge our responsibility for the environment. Recently, we have started the process of converting our coaches to being capable of running on 100 % bio fuel. We invest in the latest technology.

If you travel with your spouse our popular sightseeing tours depart on a regularly basis. We also arrange private sightseeing tours.
